EXOTIC FIBER PROCESSING PRICE LIST JULY 2015

All prices are on the finished weight of your product and include all steps in making the product. You can get your own natural colours processed; we do not offer dyeing of exotic fibres. If you do not have enough of your own fiber for a product, we are willing to exchange with you using our Wool Credit system. Exchanging medium/coarse fiber for a fine-grade fiber is an extra \$4.00/lb. Ask about large quantity discounts.

ROPING (ROVING) - We will wash and card 100% llama or alpaca fiber into roping, or we can blend your fibre with wool to process into roping. For best results, fiber length should be less than 4 inches (10 cm). There is no minimum weight requirement for roping.

BATTING- We will wash and card your blended (at least 30 % wool) alpaca fiber into quilting and felting batts. For the best results, fiber length should not exceed 4 inches (10 cm). There is no minimum weight requirement for batting. Should you wish to have bedding made, we are happy to send your alpaca batting to be sewn into comforters by Martha's Woolies, Spruce Grove, 780-962-5774. Ask for prices for down proof ticking outer fabric and sewing.
